Forecast For East Midlands
Issued by Met Office Exeter
at 0400 on Wednesday 27 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Rather cloudy and damp today. Less cold than on Tuesday.

Today:
A rather cloudy and damp day, with some outbreaks of patchy light rain and drizzle at times, especially across the Lincolnshire Wolds. Feeling less cold than on Tuesday. Perhaps some bright or clear spells developing later in the day. Maximum temperature 8 deg C (46 deg F).

Tonight:
After a dry evening, cloud and rain, heavy at times, will move slowly northeastwards across all parts overnight. Turning windier and less cold too. Minimum temperature 5 deg C (41 deg F).

Thursday:
A band of rain, heavy at times, will continue to slowly move northeastwards during Thursday. The rain gradually easing through the day. Turning a little milder too. Maximum temperature 9 deg C (48 deg F).

Outlook for Friday to Sunday:
Rain gradually sinking back southwards on Friday. Turning colder, with widespread frost overnight. Dry, sunny and cold on Saturday and early Sunday, before rain and some hill snow arrives later.
